

## **Next Generation Partnership:**

### *A Platform for Future Movers and Shapers in Glaucoma*

#### ***Manifesto Summary***

'Next Generation Partnership' (NGP) is a European Glaucoma Society (EGS) initiative aimed at stimulating and facilitating the involvement of its participants in helping the EGS achieve its mission through the Society's various activities. This platform is dedicated to ophthalmologists and researchers in glaucoma within the geographic boundaries of Europe. The main objectives of NGP are:

- Enhance professional and leadership development of emerging, future leaders in glaucoma.
- Provide a forum for sharing expertise and exchanging ideas for shaping the future of the EGS.
- Define and promote education and research initiatives that support the goals of the EGS.
- Provide a platform for networking with experienced members of the EGS and other NGP members.
